COPYRIGHT LAWS: Exhibitors should avoid using copyrighted materials whenever possible by originating his/her own work. Exhibitors should use with caution a copyrighted and/or trademarked product or service (a brand name, label or product). The intent of using the copyright or trademark materials for educational purposes such as an exhibit, educational poster/display or public presentation is acceptable under the “Fair Use” (legal use) provision. “Fair Use” is a provision of the current copyright law that allows reproduction without payment or permission of limited portions of a copyrighted work for educational and other public interest purposes. Regardless of the “Fair Use” provision, the inference that a specific name brand product is good or bad, inherently or through comparison, must be done cautiously, using acceptable research/comparison methods and have a disclaimer that the conclusions are those of the participant and not those of K-State Research and Extension. A copyright and trademark are legal methods used by writers, artists, corporations and others to protect their original work. Protected items may range from books to music, logos to computer graphics. Copyrighted and/or trademarked materials used in banners, displays, demonstrations, posters or other activities for endorsement or promotion instead of educational purposes will be disqualified and will not be displayed or receive ribbons or premium. Kansas State Fair Exhibitors

In 2009, the rules changed so that 9 year old 4-H members (as of January 1 current year) could exhibit at the Kansas State Fair in nearly all divisions (exception – Fashion Revue participants must be 14). All youth who qualify and want to participate in the State Fair must pre-enter by the deadline date. See your newsletter or call the Extension Office for more information about qualifying, pre-entering and entering exhibits for the Kansas State Fair.

GENERAL LIVESTOCK RULES

1. Youth livestock show exhibitors will be limited to regularly enrolled 4-H members of Franklin County.
2. Livestock that has been previously shown at a county fair outside of Franklin County may not be exhibited. This includes both market and breeding divisions.
3. All livestock stall reservation forms, horse pre-entry forms, livestock and animal entry forms are due in the Extension Office by Friday, June 29.
4. Exhibitors are limited to 4 market and 4 breeding animals per specie.
5. No premium will be awarded to animals not listed in this premium list.
6. No animal deemed unworthy will be awarded a premium. In the case of only one entry per class, only one award will be awarded and shall be at the judge's discretion.
7. No premium money is paid on showmanship classes. (Ribbons only)
8. All livestock will be checked according to the list of health rules and regulations.
9. No animals are allowed on the fairgrounds before Wednesday, July 18 at 5:00 p.m. without permission of the fair superintendent.
10. The livestock check in will be Wednesday, July 18, 5:00 p.m. to 8:00 p.m. **No Early Arrivals.**
11. All livestock must be removed from the fairgrounds by **7:00 a.m. on Sunday.**
12. All animals must have an ear tag for identification. Market animals must have an official 4-H tag and have been nominated at spring weigh-in.
13. 4-H members are encouraged to groom their own livestock. During the fair, only the immediate family or legal guardians, or other Franklin County 4-H members or their immediate families, may help an exhibitor with the grooming of their animals. Professional fitters or livestock consultants are strictly prohibited from assisting 4-H members on the fairgrounds. Violation of this rule may or will lead to total disqualification of the exhibitor from the show and the ability to sell the livestock in the premium sale. Anyone wishing to report a violation of this rule shall report to the livestock superintendent or a fair board member.
14. All 4-H members are expected to wear appropriate dress while exhibiting in the show ring and at the market sale. Appropriate dress is referred to as a shirt or blouse with a collar, jeans or slacks and boots or laced up shoes. 4-H Club shirts are also acceptable. Those not meeting this requirement will be removed from the show or sale.
15. Beef and Dairy grooming chutes must be kept outside of the barn. Driveways must be kept open for fire precautions. If the superintendent asks you to move your equipment, it will be because of safety reasons. Please do so in a friendly and timely manner.
16. Exhibitor must show their own animal.
17. Due to liability all animals must remain on the fairgrounds once entry has been entered. This means all animals must remain west of the rails-to-trails path. Violations of this rule must be witnessed by a superintendent, extension agent or fair board member and validated violation will cause all monetary awards to be withheld and parents will be contacted immediately. 4-H members should make note those leaving the fairgrounds prior to animal release will result in disqualification and be sent home immediately.

18. Due to Homeland Security stipulations, no vehicles or livestock trailers can be parked between the rails-to-trails and the armory yard fence. Violators could be towed at their own expense.
19. No hoses are to be left strung out in the swine barn; all must be rolled up after each use. All electric cords need to be off the ground. The aisle needs to be kept cleared at all times.

UNLOADING AND PARKING AT THE FAIR

Animal Unloading: All truck and trailers should enter at the east gate on the rails-to-trails side and proceed west between the barns. Trucks and trailers should be removed from the barn area immediately upon animal and supply unloading to allow for access to the area for other exhibitors.

LIVESTOCK HEALTH REQUIREMENTS

GENERAL REQUIREMENTS:

1. All livestock will be examined by superintendent before being admitted to the stalls. If needed, a veterinarian will be called to inspect any animal that may not meet animal health guidelines for show. The veterinarian will have full authority to bar any animal from the fair that does not meet the animal health requirements. If, at any time during the fair, an animal poses a health threat, the fair veterinarian has the full authority to have the animal removed.
2. Animals with active lesions of ring worm, club lamb fungus, multiple warts, lice, mange, or other unhealthy conditions will not be permitted to exhibit.
3. No behavior altering drugs will be permitted. Animals under drug influence will not be allowed to show and will be required to leave the fair.
4. All livestock must be identified by an ear tag.

CATTLE REQUIREMENTS:

1. No health papers are required for cattle. All cattle will be inspected by the superintendent at check in.
2. Beef and dairy cattle are required to comply with all federal livestock health rules.

SWINE REQUIREMENTS:

1. All swine will be inspected by superintendent at check in. No health papers or blood test are required.
2. Swine are required to comply with all general livestock health rules.

SHEEP REQUIREMENTS:

1. All sheep will be inspected by the superintendent at check in. No health papers are required.
2. Sheep are required to comply with all general livestock health rules.
3. All sheep must have an official USDA scrapie tag.

GOAT REQUIREMENTS:

1. Goats shall meet the general health requirements.
2. All goats will be inspected by the superintendent at check in. No health papers are required.
3. All goats must have an official USDA scrapie tag.

HORSE REQUIREMENTS:

1. Horses shall meet the general requirements.
2. All horses must have a negative Coggins Test within 12 months of the show.
3. All horse project members must have a completed Kansas 4-H Horse ID Form for each horse to be used during the 4-H year. The form must be on file at the Extension Office by May 1.

POULTRY REQUIREMENTS:

All chickens and turkeys must be blood tested within 90 days of show. For more information about the blood testing requirements, consult "Information about Disease Testing Requirements for Poultry and Game Birds in Kansas" by Scott Beyer, available from your local Extension Office.

Pullorum-Typhoid Testing – Requirements for each method of certification.

- a. **Test Prior to Show** – Owner must present an official VS Form 9-2 (Flock Selection and Testing Report) signed by an official blood testing agent showing that the entries have had a negative test from an official pullorum-typhoid test conducted within 90 days prior to the show. Sealed leg band numbers of the entries must be shown on the form and agree with the numbers on the entries.
- b. **From Clean Source** – Owner must present evidence, such as a sales slip or name of hatchery (this must be an original form from the hatchery), that the entries were purchased from a pullorum-typhoid clean source with a valid NPIP number. This method can only be used WITHIN 90 DAYS OF HATCH. This means that the only birds that will qualify under this method will be Cornish-Rock cross meat birds. Market Broilers shown at the Kansas State Fair qualify under this method. Because almost all exhibition birds shown in a poultry show will be over 90 days of age, they will need to show proof of testing.

ANIMAL ETHICS

The Franklin County Fair encourages and strongly supports the ethical treatment of all animals. Exhibitors found to be inhumanely abusing animals will be barred from showing and will forfeit any premium, ribbon or prizes won. Show Superintendents and County Extension Agents have the full authority to interpret these rules and their decision shall be final. Abuse shall include beating, slapping, use of injections, use of electric prods and lifting in show ring. These rules are for the best interest of the Franklin County Fair.

1. **The Steer and Heifer Show will be a no-fit show, “Blow & Show”.** “No Fit” is defined as using no adhesive, glue, paint or powder products. 4-H members are encouraged to groom their own livestock. During the fair, only the immediate family or legal guardians, or other Franklin County 4-H members or their immediate families, may help an exhibitor with the grooming of their animals. Professional fitters or livestock consultants are strictly prohibited from assisting 4-H members on the

fairgrounds. Violation of this rule may or will lead to total disqualification of the exhibitor from the show and the ability to sell the livestock in the premium sale. Anyone wishing to report a violation of this rule shall report to the livestock superintendent or a fair board member.

2. Breeding females must be entered with the superintendent **at the fair on Wednesday night**. Pre-entry **does not** mean animal is entered in the appropriate class. Pre-entry only holds a place for the animal in the barn.
3. All beef exhibits must be stalled at night in the beef barn or in the designated tie out area only. Animals being placed within the tie out area pen provided must be in the pen by 10 p.m. each night so the pen can be secured. Exceptions to the 10 p.m. rule must be coordinated prior with the beef superintendent and in case of the beef show running long, the pen will be secured 1 hour after the conclusion of the beef show. No other tie out areas will be allowed and no cattle will be tied out at trailers. Animals in the tie out area should be removed and back in their stall in the barn by 10 a.m.
4. Straw must be used in designated tie out area. At the conclusion of the fair, it is the exhibitor's responsibility to move all bedding back 2 feet from the pipe fence.
5. All entries are to be bedded on wood shavings, in the cattle barn. No fine saw dust, pellets, stall/trailer mats or straw will be allowed in the barn. Rubber toe mats can be used in conjunction with wood shavings at the head of the stall but cannot be used as the only means of bedding. All bedding must be out of bags, with all plastic and paper removed from the stall. At the conclusion of the fair, all bedding should be pulled 2 feet from the pipe fences. Violation of these rules will result in a \$10 fine per animal.
6. Please note stall space is calculated at 2-3 feet per animal and tack area is designated by club.

Top 1st Year Entomology Exhibitor – Plaque, sponsored by Dave's Pest Control

A 4-H member may exhibit in the Entomology Collection, Entomology Notebook and/or Educational Display categories. Within each category there are classes in Beginning, Intermediate or Advanced phases in which they enroll. An Introductory Entomology Collection Class exhibit is encouraged for county fairs (first year members only), but these may not be exhibits at the State Fair. See class descriptions within categories for requirements.

We are transitioning from the taxonomy as listed in the "Insects in Kansas" book to the taxonomy listed on the "Insects in Kansas Book: 2016 Revised Taxonomy" which follows www.bugguide.net. Resources for exhibiting can be found on the State Kansas 4-H Website:

<http://www.kansas4-h.org/projects/agriculture-and-natural-resources/entomology.html>.

COLLECTION CLASSES

1. All entries should be submitted in an 18 x 24 x 3.5 inch wooden display box with a clear plastic top. Boxes can be handmade or purchased as long as they are of the correct size and do not have a glass top. Please visit the website listed above for box instructions and plans.
2. During the transition, Orders and Family names should follow the taxonomy either
 - a. As printed in "Insects in Kansas" book or
 - b. As printed on the "Insects in Kansas Book: 2016 Revised Taxonomy", which follows www.bugguide.net. Project members are encouraged to progress towards options b by 2019 or as revised "Insects in Kansas" book available.
3. Each exhibitor is required to identify each box with two identification labels bearing exhibitor's name, county or district, the class, and statement of taxonomy used:
 - a. "Insects in Kansas"
 - b. "Insects in Kansas Book: 2016 Revised Taxonomy" which follows www.bugguide.net.One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so it can be displayed lengthwise.
4. The number of orders, specimens (and families where required) must be included on both of the exhibitor's box identification label. Only adult specimens can be used in collection boxes; however, one female and one male of a species correctly identified can be displayed.
5. Arrangement of specimens: The preferred method is to arrange the insects in groups or rows parallel to the short sides of the box. Arrangements that run lengthwise of the box are frequently downgraded in judging. Specimens are to be arranged by Order in the box, then family where required. The sequence arrangement of the Orders in the box will be left up to the member. It is suggested to put

- the Lepidoptera and Coleoptera in the center of the collection (for Intermediate and Advanced Classes to put these two orders in a box). Then work the other orders around them.
6. For each collection class, two labels will be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county name, state abbreviation and collector name on the second label are encouraged for 2016 and will be required in 2019. Collector's name on the date/locality label is optional.
 7. The specimens should be collected by the exhibitor and should focus on Kansas insects. Insects may be collected from one county into bordering states and labeled accordingly. Other specimens from the United States may be included as long as they are properly labeled and placed in a separate section of the box labeled "Out of State Insects". These specimens will not be included in the county for judging/scoring. Emphasis in judging will be placed on the overall variety of insects represented in the collection, accuracy of identification, skill and technique acquired in mounting of specimens, and overall arrangement and appearance of the collection.
 8. Only specimens of the class Insecta should be included. *This means specimens from arachnids, such as spiders, millipedes, centipedes, ticks, mites, etc. will not be judged or included in overall specimen county.*
 9. Purchased insects are not to be exhibited in collections, but they may be used in educational displays.
 10. Specimens of soft bodied insects such as aphids, lice, termites, etc. should be exhibited in alcohol filled vials; however, the use of alcohol filled vials should be limited to only those specimens that lose their shape when pinned, since the vials pose a significant hazard to the rest of the collection if they become loose in transit.
 11. Points will be deducted from collections and notebooks if:
 - a. Non insects and out of state specimens are not in a designated 'display only' area.
 - b. Any specimens are immature.
- 400** COUNTY FAIR CLASS FOR BEGINNERS – 4-H members 7-9 years of age or beginners of any age may enter in this phase for only two years. Display in two cigar boxes (lids removed and each box covered with a clear plastic wrap). Cigar boxes should be about 2" x 6" x 8". Display a minimum of 15 species but no more than 30 species. This should include a minimum of six orders. Labels for the insect orders are required and must be pinned to the bottom of the boxes. A date/locality label is required on each specimen. This label is centered on the pin beneath the insect. Locality refers to the county and state where collected. Date refers to the date the specimen was collected. Labels should be small and neat. ***State Fair does not offer this class.**
- 401** BEGINNING I ENTOMOLOGY COLLECTION - Display in one standard box a minimum of 50 and maximum of 125 species representing at least 7 orders. Follow the general guidelines listed for Collections. A 4-H member can exhibit in this class a maximum of 3 years, or until they receive a purple ribbon at the Kansas State Fair, whichever comes first.

- 403** INTERMEDIATE ENTOMOLOGY COLLECTION - Display a minimum of 100 and a maximum of 300 species representing at least 10 orders. Two standard boxes can be used. Follow the general guidelines listed for Collections. In addition, family identification is required for all insects in any two of the following six orders: (Only two will be counted for judging)

- a) "Insects in Kansas" book – Orthoptera, Hemiptera, Coleoptera, Hymenoptera, and/or Diptera or
- b) "Insects in Kansas Book: 2016 Revised Taxonomy", which follows www.bugguide.net – Odonata, Orthoptera, Hemiptera, Coleoptera, Hymenoptera, and/or Diptera.

On a piece of paper list what you did to improve your collection during the current year. Examples: what insects did you add or replace; what orders and/or families you added; what Leadership you provided in this project; and/or what you have studied. Attach paper to the *front* of one of the display boxes. Members can exhibit in this class a maximum of 3 years. A 4H'er may move up is they receive a purple ribbon.

- 404** ADVANCED ENTOMOLOGY COLLECTION - Display a minimum of 150 and a maximum of 450 species representing at least 12 orders. Three standard boxes can be used. 1. Consultation judging with the judge is optional.
2. Exhibit box should be 18 x 24 x 3 ½ inches. Plexiglass covers are required. Boxes with glass covers WILL NOT be accepted. All specimens are to be arranged across the narrow (18 inch) dimension of the exhibit box, making the exhibit 18 inches across the top and 24 inches deep exactly. If a box has a sliding plexiglass cover, it must be removable from the top. Screws, locks, or other devices that would prevent judges from removing the cover should not be used. For Lapidary classes 527-531 only, the dimensions of the box should be appropriate for the display, but should not exceed 18" x 24" x 3 1/2 ".
3. Each exhibitor is required to identify each display box by placing an identification label bearing name, county or district, and number of specimens in the upper-left hand corner of the Plexiglass cover (inside-use clear double-sided tape to adhere gummed labels), and by attaching a label with the same information on the lower right corner of the box (outside).
4. Exhibitor may enter in both Geology and Lapidary classes. Exhibitors may show in only one of the first four geology classes (521-524). Exhibitor may also show in geology class 525 (special exhibit), 526 Mineralogy and in one Lapidary class.

Genus name is to begin with a capital letter. Species name is all lower case. Genus and species names must either be italicized or underlined, not both. The words "phylum, class, genus" on labels are to be spelled out, not abbreviated. More than one specimen of the same kind of rock or mineral or species of a fossil may be exhibited if this duplication represents different geological formations. Specimen label must show this distinction (Fort Hays limestone, not just limestone; calcite from the Greenhorn Formation, not just calcite; Phylum: Brachiopoda Class: Articulata Genus: Composita from the Morriell Limestone Member, not just pHylum: Brachiopoda Class; Articulata Genus; Composita).
7. For Geology Classes 521, 522, 523, 524 & 526, all specimens must be collected (not purchased) from locations in Kansas, with the exception of Tri-State Mining Area specimens collected from the following three adjacent counties: Ottawa County, OK; Newton and Jasper Counties, MO.
