What is Ripples of Change?

Surviving	Thriving
Spend all of your money as soon as you get it.	Always set aside some money for emergencies and the future.
Focus on the problems of today without thinking about your goals for the future.	Focus both on today and your future.
Don't save money	Save money so you have at least 3 months of emergency reserves.
Take jobs that provide only enough money to get by on.	Get a good job that pays for more than your expenses so you can invest in your future.

Ripples of Change is like family and provides a support group. Children are welcome with childcare provided.

A free meal is provided each week and everyone dines together. Participants learn about community resources that are available, they network, receive education on how to succeed and get tips on things like parenting and relationships.

It allows participants to *dream* by helping them develop goals to attain their dreams. It provides *hope* through positive encouragement, increased self-esteem and dignity.

Become a Ripples of Change participant Today!
