Free & Reduced School Meal Program: Schools provide Free and Reduced Price School Meal Program application information at the beginning of each school year. However, you may apply at any time during the school year for the Free and Reduced Price School Meal Program by submitting an application directly to your school.

If your family financial situation changes for any reason, your income level may qualify your children for this program. For example, children with a parent or guardian who becomes unemployed may become eligible for free or reduced priced meals if the household income drops below the income limit. The amount and source of income for each household member received in the previous month is the family income information necessary for a school to make an eligibility determination.

Your school or local school board office can provide an application and current Federal Income Eligibility Guidelines upon request. **Franklin County school board offices:**
